

ELECTRIC MOTORS

Efficiency and productivity are required in today's industrial world. Motor demands and repair needs fluctuate from day to day. Industrial environments require timely solutions in order to minimize downtime. York is a company that not only is innovative, but also has integrity and dedication. York's Electric Motors Division has proudly provided customers with exceptional quality, service and value for over 35 years. You can place your trust in York when your company demands rapid electrical motor repair. York is *The Power Behind Your Productivity™*.

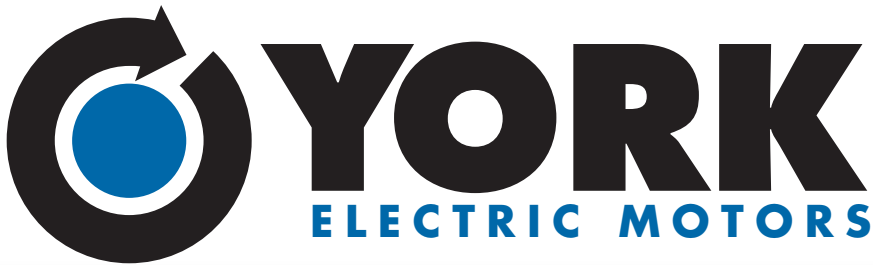

ELECTRIC MOTOR REPAIR

York's Electric Motors Division is a full service motor repair facility capable of managing all of your motor needs. We can assist with repair to replacement or specification on new projects. Our facility is well equipped for 20 tons of lifting capacity, 9 foot diameter VPI system and 7200 volt testing system. York's in-house capabilities helps reduce lead times due to sub-contracting services. Our services and capabilities help maintain your high-level productivity. Please contact your sales representative to obtain a quote and learn how York can keep your business running.
