

INDUSTRIAL REPAIR

Today's industrial world is in a state of constant change. Needs fluctuate day to day and repairs require timely solutions in order to minimize downtime. York is a company that not only is innovative, but also has integrity and dedication. York's Industrial Repair Division has proudly provided customers with exceptional quality, service and value. You can place your trust in York when your company demands rapid repair of pumps, gearbox, and other types of mechanical repair. York is **The Power Behind Your Productivity™**.

York provides prompt, quality repairs every day of the week, 24-hours a day. Our goal is to keep you on target with your productivity needs. We regularly invest in the latest equipment and keep our staff up-to-date with the latest industry knowledge through seminars. York offers fast, one-stop service and a 100% guarantee. Please contact us to learn how we can help your company.

PUMP REPAIR

York has factory-trained technicians and journeyman machinists who can provide mechanical solutions for your company's pump repair needs. York has the equipment in-house to maintain quality repairs and reduce lead times. From shaft seal to Impeller – we repair centrifugal, coolant, submersible and vacuum pumps. Call your sales representative for a complete list of pumps we repair.

York services the following pumps and more:

|---|---|---|---|
|  Atlanta |  Bodine |  Falk |  Linkbelt |
|  Baldor |  Boston Gear |  Grove |  Rexnord |
|  Bayside |  Dodge |  Lenze |  SEW Eurodrive |

FIELD SERVICES

York provides focused expertise in specialized areas of Predictive Maintenance, Cryogenic Cleaning and Turn-Key Labor Services.

Predictive Services: Includes vibration analysis, field balancing, thermography and electrical testing. York identifies problems due to unbalance, misalignment, resonance, bearings, failure, etc.

Cryogenic Cleaning: Is a cleaning solution that is environmentally safe. We do not use abrasives or chemicals. We offer in-plant service, avoiding removal expense. York also offers this service for the following cleaning applications: large fans, printing presses, large motors, generators, switchgear and SCR banks.

Turn-Key Labor Services: York supplies labor services to assist in equipment removal, installation and shaft to shaft laser alignment. When sources are limited and time is short, York provides efficient and safe labor services.

Let our advanced technicians trouble-shoot any of your business interruptions. Please contact us to find out how we can help you avoid unplanned shutdowns, decrease downtime and extend equipment life. Let York be **The Power Behind Your Productivity™**.
