

LARGE MOTOR REPAIR

INDUSTRIAL REPAIR SOLUTIONS THAT DECREASE YOUR DOWNTIME

Why Trust Anyone Else.

For over 75 years, York has been committed to providing expert motor repair. In early 1990, we greatly expanded our facility to increase our capacity in both size and scope. We added a large burn-out oven, a large bake oven, and a high capacity 9 foot diameter VPI system. Based on our 20 ton lifting capacity, we can voltage run-test up to 7200VAC and 750VDC. Since then, we have worked hard to establish our reputation as the premiere large motor repair center in the region. Our primary customers are utilities, petrochemical, aggregate, municipalities.

YORK CAN PROVIDE:

- LARGE MOTOR REPAIR UP TO 6,000 HP, FROM ANY MANUFACTURER
- A VPI SYSTEM FOR MOTORS UP TO 8,000 HP
- A FULL WINDING DEPARTMENT FOR LARGE MOTOR REWINDS
- REWIND ROTATING POLES ON SYNCHRONOUS MOTORS
- COMPLETE MACHINING CAPABILITIES
- SHAFT REPAIR AND REMANUFACTURE
- REPLACE, REPAIR BEARINGS
- REMANUFACTURE SLIP RINGS
- ROTOR REWIND AND RE-BAR
- DYNAMIC BALANCE UP TO 20,000 LBS.

YOU CAN TRUST YORK WILL GET THE JOB DONE:

- 7,108 LARGE MOTOR REPAIRS SINCE 1990.
- LESS THAN 1% EVER COME BACK FOR WARRANTY SERVICE.
- NEVER HAD A MEDIUM-VOLTAGE FORM WOUND REWIND COME BACK DURING WARRANTY

Trust York for your large motor repair when you have a planned outage, or in need of a fast turnaround to decrease downtime
